

1. Touch & hold the app's icon.
2. Tap .
3. Select the folder.

To remove one app from the folder:

1. Open the folder.
2. Touch & hold the app's icon.
3. Tap .

Remove widgets, shortcuts, or folders

To remove items from your home screen:

1. Touch & hold it until it vibrates.
2. Drag it to **Remove**.

For app tray folders, tap  **Delete**.

App icons on the home screen are **shortcuts** to installed apps found in the [app tray](#). Removing an app shortcut from the home screen doesn't uninstall the app. [Learn how to uninstall apps](#).

To select a totally new user interface for your home screen, [download a different launcher](#).
