

Search the web

Search from anywhere

You don't have to leave your current app to search for the info you need. Use Google Assistant from any screen to get search results and options for your next action.

To search:

1. Say "OK, Google" or "Hey, Google". (Be sure you've [set up the launch phrase](#).)
Or swipe diagonally from either lower corner of the screen.
2. Tell the assistant what you're looking for. For example, search for a local restaurant by saying "Find [restaurant name]."
3. Below the search result, tap options for related actions: make a call, get directions, read reviews, and more.

For more help with Google Assistant, [read Google's support information](#).

Search with the Google search bar

Type search terms

1. Tap the blank space on the search bar.
2. Start typing a search term.
As you type, suggested terms appear.
3. Tap a suggestion to search for it.

Use voice search

Tap  to call Assistant. [Learn more](#).

Use camera to search for info

Tap , then follow onscreen instructions.

Use camera to search for info

You can use  Google Lens with your camera to:

- **Search for information about objects and surroundings:** Learn about products, landmarks and buildings, plants and animals, books and visual art
- **Scan barcodes and QR codes:** Search for related information, open a website to purchase a product
- **Digitize real-world text:** Copy text to paste in another app, translate text, save business card information to Contacts, create calendar events from dates on posters or billboards

To use Google Lens:
