
Make video calls

Make video call with Meet app

Meet lets you video call anyone in your contact list who also uses Meet. Android users can get it from Play Store, and iPhone users can download it from the App Store. The video calls are secure and can't be seen by others.

To get started, [open](#) the Meet app and follow the onscreen instructions to set it up. For more information, tap  > **Help & Feedback**.

Get an app to make video calls

There are many video calling apps to choose from on Play Store (like WhatsApp, Skype, and more).

1. [Open](#) the **Play Store** app.
2. Search for "video calls".
3. [Download](#) the app you want to use.
