
Double-tap back for shortcut

You can double-tap the back of your phone to:

- Open an app of your choice
- Record your screen or take a screenshot
- Switch to your last app or return to the home screen
- Start and stop music

Change what happens when you tap twice

1. Go to **Settings** > **Gestures**.
Or, **open** the **Moto** app and tap  > **Gestures**.
2. Tap **Quick Launch** and make sure it's on .
3. Tap .
4. Select what you want your phone to do when you tap the back twice.

Adjust tap strength

1. Go to **Settings** > **Gestures**.
2. Tap **Quick Launch**.
3. Tap  > **Tap strength**.
4. If you want to try different strengths before selecting one, tap **Try it out**. Then tap **Done** when you're ready.
5. Select the strength.
