
Turn flashlight on and off

To turn your flashlight on or off:

- [Add !\[\]\(f15d3c54be60b4fd0ce1da9fb3f67256_img.jpg\) to your lock screen](#), then just wake the screen and tap .
- [Open quick settings](#) and tap .
- Or, make a chopping motion.

If the camera opens instead of turning on the flashlight, be sure to use a chop gesture, not a [twist gesture](#).

To control the chop gesture:

1. Go to [Settings](#) > **Gestures**.
Or, [open](#) the **Moto** app and tap  > **Gestures**.
2. Tap **Fast flashlight** and turn it on or off.
