

Can't make calls

After each troubleshooting step, check to see if your issue is fixed.

Phone app icon is missing

If  disappeared from your home screen, you just need to [add a shortcut](#) for the Phone app.

SIM card not recognized

If you see  or  in the [status bar](#) or a message that the SIM is not recognized:

1. Turn your phone off and then on again.
Press the **Power + Volume up** buttons simultaneously, then touch **Restart** to establish a new connection with the network.
2. Do one of the following:
 - If you're using a physical SIM card, turn your phone off, then [remove and reinsert the SIM](#).
 - If you're using an eSIM, [reset the eSIM](#) and then [set it up again](#).
3. Contact your carrier to make sure your account is set up properly.
4. Ask your carrier to replace the SIM card.
5. Perform an external phone [reset](#).

No signal

1. If you usually have a signal  but the [status bar](#) shows  in your current location, move to another area where you can receive a signal, like outdoors. If you're uncertain whether your carrier provides service in that location, check the coverage map on your carrier's website.
2. If [airplane mode](#) is on, turn it off.
3. Turn your phone off and then on again.
4. [Check for app updates](#).
5. [Check if a software update is available](#) for your phone.
6. [Remove your SIM card](#) and reinsert.
7. [Use safe mode](#) to see if apps you installed are causing the issue and uninstall as needed.
8. [Reset the phone](#).

Have signal, but can't make calls

1. Turn your phone off and then on again.
Press & hold the **Power + Volume up** buttons simultaneously, then touch **Restart** to establish a new connection with the network.
2. Clear the cache for the Phone app.
3. [Use safe mode](#) to see if apps you installed are causing the issue and uninstall as needed.
